OFFICIAL

ENVIRONMENTAL & ENERGY AWARENESS WEEK: Mr. David B. Struhs, Secretary of the Florida Department of Environmental Protection, will be at KSC on April 22 in the Training Auditorium in celebration of Earth Day. The Environmental & Energy Awareness Week celebration will begin with an Opening/Awards Ceremony in the Training Auditorium on April 22 at 10 a.m. Mr. Struhs will discuss the Governor's Energy Budget Priorities. He was appointed Secretary by Governor Jeb Bush in January 1999 and confirmed by the Florida Senate in March. Mr. Struhs oversees Florida's environmental regulatory and law enforcement programs, the acquisitions and management of public lands, including an extensive system of state parks, and the development and regulation of Florida's water resources through the state's water management districts. Upon his arrival in Florida, Secretary Struhs became chief strategist and advocate for the passage of Governor Jeb Bush's "Florida Forever" Plan—the largest conservation land program in the world. In his first year in Florida, the Florida Junior Chamber of Commerce named Mr. Struhs "Outstanding Young Environmentalist." Secretary Struhs takes pride and finds personal pleasure in the 150 parks operated by DEP. Florida's State Parks currently hold the National Park and Recreation Association's Gold Medal, having been voted the best state parks system in America. He has also gained national recognition for Florida's DEP by successfully arguing that the "reasonable assurance" test widely used by environmental regulators as the standard for issuing permits should consider the applicant's record of environmental performance. This common sense consideration represents a significant advancement in executing environmental laws. Please join us in welcoming Secretary David B. Struhs to the Kennedy Space Center. (TA-C3)

**NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS:** Making the change to eating healthier is easier than you think. Begin at the beginning-breakfast! Many people rush off in the morning without taking time to refuel. Consequently, they overcompensate by eating an unhealthy lunch, or an unhealthy mid-morning snack (doughnuts or cookies from the office kitchen sound familiar?). Eating breakfast gives the body an immediate chance to energize after a night of rest, and a buffer from overeating later on. Some people mistakenly think that skipping breakfast is a great way to cut back on daily calorie intake—WRONG!! If you allow an extended period of time to pass without eating, your body will go into “starvation mode” which decreases your metabolism and the body’s ability to expend energy or stored fat. Plus, it’s hard to make healthy selections for your next meal if you are starving! Here are some easy, quick, and healthy ideas for breakfast:

Yogurt with wheat germ or fresh fruit  
Cheese toast or peanut butter toast  
Dried fruit (apricots, raisins, cherries)  
Instant oatmeal  
Apples or bananas with peanut butter
